## Features

### Blue Mirror Lens

The Blue mirror coated lens protect against UVA-UVB (99,99%) light and deflect sunlight, reduces glare and enhances contrast more than a standard tinted lens. For use in sunny outdoors environments.

### Anti-Scratch Coating

Protects both sides of the lens against surface scratching increasing the lifespan of the eyewear.

### Anti-Fog Coating

Prevents both sides of the lens from fogging or steaming up when exposed to warm humid environments.

### Dual Material Temples

The soft rubber material covering the hard plastic temple enhances the wearer comfort. A groove pattern ensures a good grip when moving around.

### Light Weight Design

The lightest safety glasses in our range and one of the lightest on the market. Comfortable to wear all day long, almost without noticing it.

### Ideal for Use in Combination with Hearing Protection

The slim temple design minimizes any leakage to the hearing protectors ear cushions, retaining a good seal between cushion and the face with very little noise attenuation loss.
